MEET THE WINNER OF THE LEGO® CREATOR COMPETITION!

**THE
GRAND PRIZE
WINNER!**

Richard Hanson

The challenge was to create a 4th model for the LEGO Creator 3in1 Mighty Dinosaur set. Richard Hanson, a talented builder, won the competition with this awesome Scary Scorpion model. We asked him to talk to us about his super cool design and what it took to create it!

Q: Your build is so clever and unique! What inspired your creation?

A: I'm a big dinosaur fan, and when I saw the Mighty Dinosaur set in the competition, I thought it was the best set to experiment with. I started by building the T-Rex Dino from the official set instructions to get a feel of the set. When I'd finished building that, my wife said that the tail looked like a scorpion's – and that was all the spark of an idea that I needed!

Mech Building Tips

Here are some hints for building your own mech:

- Remember that a mech has a pilot, so save room in your model for the pilot's seat.
- You can use antenna pieces as blasters on your mech.
- If you are adding wings, make sure they are the same size, so your model doesn't tip over.

NINJAGO CITY: UNDER ATTACK!

This multi-level metropolis is packed with shops, restaurants and all sorts of other exciting things for Garmadon to crush. Good thing the Ninja are there to stop him... or at least try to stop him.

HINT 1:

The Minifigure is not necessarily a Ninja.

HINT 2:

The Minifigure is wearing white.

HINT 3:

The Minifigure is holding something in one hand, but not both.

HINT 4:

The Minifigure is wearing a hat or helmet...

HINT 5:

BUILDING LETTER TIPS!

Here are a few tips to help you build an awesome alphabet:

1

Mix and match colours – remember, your letters don't have to all be the same colour. Sometimes combining colours will make them more eye-catching.

2

You can also build letters using plates on top of a baseplate. That's a great way to make signs to hang in your room!

3

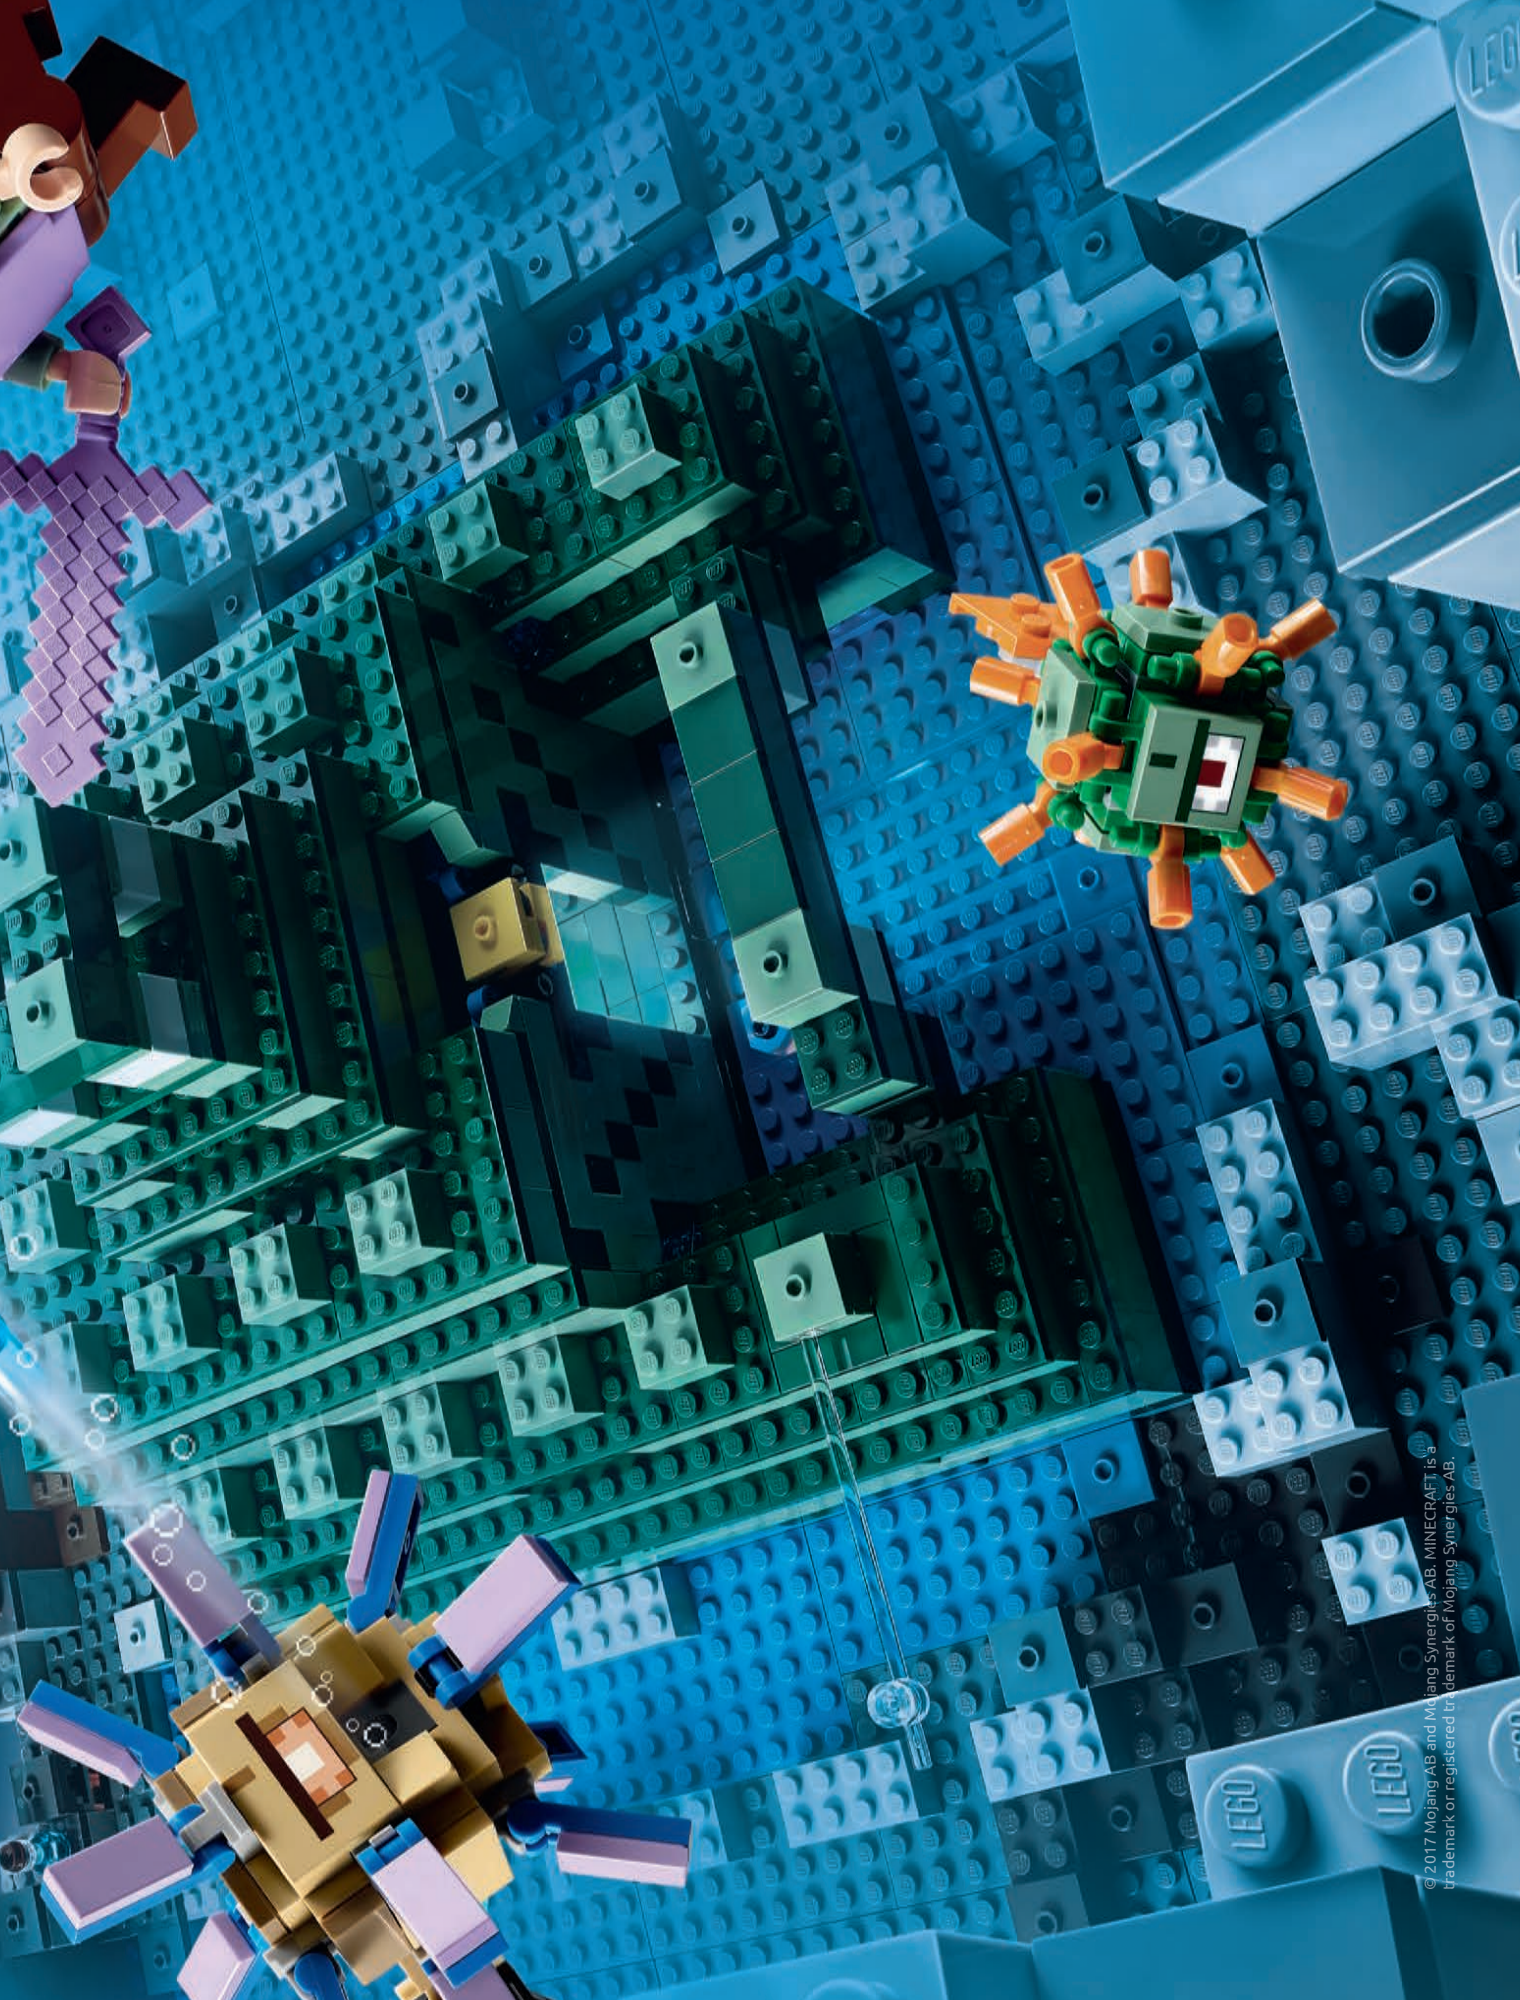

Use rounded pieces to make letters like C, O and G.

What Does a Roadcrew Do?

Roadcrews play an important part in lots of construction jobs. It's their job to help build and repair streets. In addition to the construction companies, most towns and cities employ roadwork crews to keep the avenues in good condition.

What is a Container Yard?

A container yard, also called a marshalling yard, is a place usually found at a port. Trucks bring cargo here, and the cargo is then transferred to ships for transport elsewhere. Ships that are carrying cargo will unload it onto trucks so they can bring it to stores, factories and anywhere else it needs to go!
